

# Natural wood doors

## Inimitably authentic and cosy

Do you like to surround yourself in your home with natural materials and high quality surfaces and are also concerned to know where they came from? Then we are happy to recommend to you our real wood veneer collection!

Wood is a healthy material in the sense that it has many health-promoting properties, People with allergies, for example, benefit from the fact that wood is not electrostatically charged and therefore does not attract allergens such as dust.

Wood regulates air. It takes excess moisture out of the ambient air and releases it again when the surrounding air is dry again.

Wood has its own charisma, its individuality is reflected not just in the way it looks but also in the way it feels when you touch it.

Live comfortably the natural way

Flair provided by details

Being in the presence of wood is often experienced as something pleasant even before people consciously think of it as being a natural material.

# Wooden doors

Plain door, Oak Wallis Cross, single leaf, Frame EE, V4426 hinges

For those of you who like to be surrounded by special surfaces and who value their origin. The new veneers do not only convince by their vivid appearance but also by complex finishing technologies.

Beech Markant

Tiama

Limba

To manufacture the LEBO veneer doors we use only selected simple or beautifully combined fine wood veneers. Wood is a naturally growing material. This means that veneer strips can vary in colour, structure and consistency. There may even be variations within a single veneer strip. These natural characteristics make our products authentic and mean that each element of the door is a unique object in itself.

# Wooden doors

Quirin 1 Knotty Oak

## Exciting!

With the "Quirin" series, we would like to show you how exciting it can be to combine veneer effects in both vertical and horizontal way. You can choose your own personal favourite from five different models.

Quirin 2 Knotty Oak

Quirin 3 Knotty Oak

Quirin 4 Knotty Oak

Quirin 5 Knotty Oak

Traditional, alpine elements...

...combined with modern design

...suitable for installation of the Quirin door set in Knotty Oak

**For example:**

LEBO has furnished the "Silva Peak Residences" - a set of apartments in the fabulous ski resort with more than 31 door sets in Quirin Knotty Oak. We therefore created an alpine feel using both modern and traditional design elements.
